

Night Vision Enhancement Technology

Combination of VATICS professional surveillance solution with SONY Exmor CMOS sensor and F 1.8 iris lens, we are proud to delivery you the best night vision performance ever

VATICS

SONY Exmor

F1.8 iris

Specification

Image Processor	VATICS M385S DSP, Support H.264 video compression, Up to 1080P@30fps full HD resolution, Low power consumption	Video Out	WIFI video streaming, Support Android/IOS mobile device for live view, playback and video download
Image Sensor	SONY IMX322 Emxor CMOS sensor, 1/2.7 inch@2.8 um, High Sensitivity	Recording Resolution	Support 720P/1080P APP setting
Lens	6 pieces convex mirror lens combination, Blue crystal infrared filter, Horizontal 120o, Vertical 65.3o, Diagonal 140.5o, Iris F1.8	Voice Recording	Build in high sensitivity hidden MIC
GPS	Build in GPS module with trace recording	Audio Out	1W hidden speaker support voice notification
WIFI	Build in GPS module for Android/IOS APP connection	Bracket	Sophisticated magnet bracket design
G-Sensor	Build in tri-axial G-Sensor, Support video file lock down feature	Power	5V@1A comes with dual USB car
Storage	Support Class 10 TF memory card, Support up to 64 GB, Support recording over write mode, Support motion recording	Touch Button	Support snapshot and emergency recording feature
		Dimension	145 x 38.9 x 37.8 (mm)

Slim & Sophisticated Design

We transform the dashcam design into more fashion and sophisticated, it is slim and compact. With built in WIFI feature, you can easily install the dashcam behind your review mirror and access it remotely anytime.

Wide Angle Lens & Blue Crystal Infrared Filter

Our dashcam has F 1.8 iris lens made with 6 pieces glass convex mirror lens. It provides wide angle vision area and stable performance in heat. The dashcam also has blue crystal infrared filter that filter out up to 99% of infrared giving you the sharp video quality ever before.

- voice notification
- 120° Wide Angle
- WIFI
- G-SENSOR Collision Dection
- Video/Audio
- Auto Recording
- Event Record Protection
- FULL HD 1080 P
- anti-glare
- GPS Trace Recording

Connect To Mobile Device

We know that the monitor in front of you while you are driving can distracting you and cause danger, so we add WIFI to this dashcam giving it remote access ability. Now you can safely pool your car over and access the dashcam when you need it.

- Wireless high resolution video transmission
- Live & Playback Over APP
- GPS tracking playback
